DETAILED ACTION

Allowable Subject Matter

1. Claims 24-26 are allowed over the prior art of record as amended in the reply filed December 8, 2008.
2. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose, either singly or in combination, the claimed method of injection a drug into a biological body including the steps of measuring the displacement of the skin with an applied force and adjusting the injection pressure of the injector based on said measurement prior to any injection.

The closest prior art of record is Hagen (USPN 5,354,273) in view of Vain (USPN 6,132,385), however the combination of these references does not disclose the device as claimed or described above.

Regarding claim 24, Hagen teaches an injection system which begins an injection cycle, and then subsequently measures a property of the skin and adjusts the injection pressure accordingly. Vain teaches the measurement of displacement of the skin. However, the combination of these references does not yield a device in which the displacement of the skin is measured and the injection pressure adjusted prior to any injection taking place.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
